Letter No.C.461/22-23 dated 31 t January 1923 from the Uttradi Commissioner in Mysore, to the Deputy Commissioner, Hassan District:-

---

"In continuation of this office letter No.461/22-23 dated 14th November 1922, forwarding copy of letter received from the Revenue Secretary to Government regarding the repairs to the Sri Uttaradi Mathe buildings at Hole Narasipur, I have the honor to forward herewith for information copy of letter No.1340 dated 13th January 1923 together with copies of its enclosures received from the Inam Superintendent in Mysore and to state that in view of the observations made in the Assistant Inam Superintendent's letter dated 23th May 1877 and the Superintendent's orders conveyed in letter Cl.No.21 dated 15th June 1877, there is no reason to doubt that the maintenance of the Mathe buildings in good repairs is an essential condition of the original grant. This responsibility to keep it in an efficient condition subsists in spite of the fact that extensive buildings have been constructed in Bangalore and the Mathagals also located there.

2. The above circumstances of the case may be communicated to the Samigalu in continuation of previous correspondence and he should be requested to put the building in efficient repairs at a reasonable cost, such time limit as may be necessary being fixed as was done in

3. The result of the action should be reported early for being intimated to Government with reference to Revenue Secretary's letter No.1606/Miz.522-21-12 dated 25th October 1922".

Letter No.40 dated 26th May 1877 from the Assistant Inam Superintendent, to the Superintendent of Inam Settlements:--

---

"I have the honor to bring to your notice the following circumstances connected with an important case, now pending before me, and to solicit for my guidance, the favor of your early instructions on the subject.

2. In Narsipur, there is a Mutt belonging to a priest called Sri Ootaradi Swami who not only receives a large monthly stipend of ₹ 526/— from the Narsipur Taluk Treasury, but also holds several Inam lands and villages in this Taluk, as well as throughout this province.

3. The Priest in question generally keeps wandering and is very seldom, if at all, seen in Narsipur which is his head quarters. At present he is in Poona. The Mutt in Narsipur, which is an extensive building, is in a grievously dilapidated condition, so much so, that ₹ 2000/- or thereabouts will be required to put it into thorough repairs; no light is even kept in it during nights, and so far as I am able to make out, not a grain of corn is expended here in feeding the poor travellers.

4. The Sunnads and other documents, calculated to elucidate the real objects of the grant are not forthcoming, and they are alleged to have been consumed in a fire that broke out in the Mutt some 60 years ago. Be this as it may, it is sufficiently obvious that the building at the head quarters, which is a significant one, should be preserved from decay and destruction and far different from the condition in which it is now placed.

5. It is also a noteworthy fact, consistent I think with good reasoning, that as there is no Government chattram here (as in the Taluks) for the feeding of the Brahmin travellers, this handsome and liberal donation was chiefly intended to supply its place.

6. These presumable facts derive considerable force from the circumstances that other Mutts, receiving like large Government grants, fulfil the two main duties alluded to by me. Although the priests of these Mutts keep travelling constantly, yet they are by no means unmindful of the conditions of their head quarter Mutts and of the important duty of feeding travellers in them. I beg to enclose for your perusal Bund 2 Muzrai account, and Bund No.30 Jari Inam account which contain certain entries respecting the Mutt in question. Although the entries a

very judicious course in as much as they do not disclose the pl
ing, not, it is certain but equitable to suppose for reasons already
ed. The intention is clearly meant. The fact that the Priest feeds a
great number of Brahmins wherever he keeps roving does not, in my opini
I am in fact, in the highest degree, to that act, in case that it is
any case an account can be readily traced to other profitable sources of
which the priest is in receipt of. For could any exemption be claim
ed under the provision made in the Inami Rules XII because apart from the
religious ceremonies which are to be given on particular and stated -
occasions only which therefore could be performed wherever the Priest happens
to be at the time it is clearly a duty incumbent on him to feed a number
of Brahmins daily.

3. Under the circumstances, I doubt whether under the provision
of the Inam Rule I or Inami Rule "I the Inam lands and really money grants
in lieu thereof all of which are in the nature of service grants to the
Sirkar, can any exemption be claimed therein.

4. I take the opportunity of submitting another question connec
ted with the above consideration of orders.

The Sirkar has granted (certain lands) in different circum
stances on the Tank bunds being entirely free. These are
now claimed by the Inamdars and Sirkar accounts which are not con-
clusive either way. They have produced copies of sanads
(are they authentic) in support of this claim. From the tenure of these
documents it appears, that the Inamdar is authorized to enjoy only such kavels
as are situated between villages and the Tank and restrained ~~xxxx~~
from encroaching upon the Sirkar land which the Sirkar wishes to sell, is in my
opinion clearly illegal. Should the Inamdar be allowed to sell
the Sirkar land which is situated between the Inam villages
and the Tank to the Sirkar villages. I therefore
suggest that a rule will be enacted may be imposed on all these
grants [illegible] by adding the new Inami Rule".

"In continuation of this office No.M.C.302-20 dated 26th --- February 1924 in the matter of repairs to Sri Uttaradi Mutt buildings at Hole Narsipur Town, I have the honor to state that both the Amildar and the Sub Division Officer, Holenarsipur report that --- urgent repairs to the building have all been done and that the wall to the north is out of plumb and requires repairs. The Manager of the mutt has in his yadi dated 2nd June 1924 to the Amildar --- Holenarsipur Taluk intimated that he would execute this work after the rainy season is over. I have instructed the Sub Division --- Officer, Holenarsipur to see that even this repair is executed early. There is therefore nothing further to be done at present."
